

## TABAS Consulting, LLC Joins the FACE™ Consortium

TABAS Consulting, LLC is proud to announce that we are officially an Associate member of the FACE™ Consortium for 2022.

The FACE™ Consortium, an aviation focused professional group made up of industry suppliers, customers and users, will create a technologically appropriate open FACE™ architecture, standards and business model that will result in:

1. Standardized approaches & process models within avionics systems,
2. Lower implementation costs of FACE™ systems,
3. Standards that support a robust architecture and quality software,
4. Defined interoperability within FACE™ systems and components,
5. Portability of applications across multiple FACE™ systems and vendor,
6. Procurement of FACE™ conformant products and most importantly,
7. More capabilities reaching the Warfighter faster

The Consortium is developing, evolving and publishing a realistic open FACE™ architecture, standards and business model that will be supported by FACE™ customers, vendors, and integrators supported by a robust industry conformance program.

They are providing the forum for industry and government to work together to develop and consolidate the open standards, best practices, any necessary guidance documents and models necessary to realize the FACE™ vision.

They are ensuring that the appropriate technical resources and management commitment are in place for the successful completion of their work.

They operate in a fair, neutral and open manner integrating existing and emerging standards and systems wherever possible.

The future is bright and TABAS Consulting LLC is excited to be a part of it again. [#aviation](#) [#FACE](#) [#OpenGroup](#) [#navair](#) [#oa](#) [#PMA209](#) [#softwarearchitecture](#) [#defenseinnovation](#)
